

Equipment for sale

All enquiries to Paul Tolkien: pault.aft@btconnect.com

SP10 Furnace (Ex demonstrator)
Heating up to 1100°C under controlled atmospheres.
Oxidising-Reducing, Quick heat up and cooling.
Easy slide back for loading
Hot zone 110mm diameter x 350mm long
OIRO: £5,000.00

CVD Tungsten Carbide Furnace
(In house process)
Deposition system for Tungsten Carbide
Currently in operation for coating graphite discs up to 200mm diameter.
Full technology package available
Sale due to company reorganisation
OIRO: £60,000.00

Experimental Levitation Furnace
(Ex project work)
For depositing Zirconia Carbide onto balls typically 0.5mm diameter

System consists of:
Furnace and controls
Manual gas system
WRe thermocouple
Pyrometer window
Graphite reaction zone with levitation nozzle
gas inlet system for re-acting the zirconium to form Tetra zirconium
OIRO: £30,000.00
